

Math 7 Spiral Check #2 (At Home) Student's Name

Please check off all of the assignments that are completed and in the student's spiral and look at the summaries for each set of notes. Worksheets should be glued in the spiral near the lessons and notes that they go with. All of the assignments should be titled, and a table of contents in the front should help you find all of the assignments easily. If the assignments are not there, please don't check them off.
