HW: Literal Equations and Solving Equations

1. Solve for A: $P = A - i$

2. Solve for g: $\frac{4+g}{h} = y$

3. Solve for C: $\frac{9}{5}C + 32 = F$

4. Solve for B: $V = \frac{1}{3}Bh$

5. Solve for W: $P = 2W + 2L$

6. Solve for h: $L = 2\pi rh$

7. Solve for L: $T = \pi rL + B$

8. Solve for m: $d = \frac{m}{v}$

9. Solve for x: $4(x + 5) = -6x + 2$ (Hint: can't you solve this all the way?) 10. Solve for y: $5x - 4y = 8$
