Properties of Equalities

Identify the property of equality that justifies each missing step or equation in each of the following tables.

_1.	
Equation	Steps
1.3x + 12 = 8x - 18	Given
2. $12 = 5x - 18$	
3.	Addition Property of Equality
4. 6 = x	

2.	
Equation	Steps
1. 3k + 5 = 17	Given
2. 3k = 12	
3.	Division Property of Equality

3.		
Equation	Steps	
16a – 5 = -95	Given	
2.		
3.		

4.	
Equation	Steps
1.3(5x + 1) = 13x + 5	Given
2.	
3.	
4.	
5.	

5.	
Equation	Steps
1.7y - 84 = 2y + 61	Given
2.	
3.	
4.	

6.

Equation	Steps
1. 4(5n + 7) – 3n = 3(4n – 9)	Given
2.	
3.	
4.	
5.	
6.
